## **APACHE**

### **Table of Contents**

#### **Preface**

#### **1. Getting Started**

What Does a Web Server Do?  
How Apache Works  
Apache and Networking  
How HTTP Clients Work  
What Happens at the Server End?  
Planning the Apache Installation  
Windows?  
Which Apache?  
Installing Apache  
Building Apache 1.3.X Under Unix  
New Features in Apache v2  
Making and Installing Apache v2 Under Unix  
Apache Under Windows

#### **2. Configuring Apache: The First Steps**

What's Behind an Apache Web Site?  
site.toddle  
Setting Up a Unix Server  
Setting Up a Win32 Server  
Directives  
Shared Objects

**active** systems S.A. de C.V.

### **3. Toward a Real Web Site**

More and Better Web Sites: [site.simple](#)

[Butterthlies, Inc., Gets Going](#)

[Block Directives](#)

[Other Directives](#)

[HTTP Response Headers](#)

[Restarts](#)

[.htaccess](#)

[CERN Metafiles](#)

[Expirations](#)

### **4. Virtual Hosts**

[Two Sites and Apache](#)

[Virtual Hosts](#)

[Two Copies of Apache](#)

[Dynamically Configured Virtual Hosting](#)

### **5. Authentication**

[Authentication Protocol](#)

[Authentication Directives](#)

[Passwords Under Unix](#)

[Passwords Under Win32](#)

[Passwords over the Web](#)

[From the Client's Point of View](#)

[CGI Scripts](#)

[Variations on a Theme](#)

[Order, Allow, and Deny](#)

[DBM Files on Unix](#)

**active** systems S.A. de C.V.

Digest Authentication

Anonymous Access

Experiments

Automatic User Information

Using .htaccess Files

Overrides

## **6. Content Description and Modification**

MIME Types

Content Negotiation

Language Negotiation

Type Maps

Browsers and HTTP/1.1

Filters

## **7. Indexing**

Making Better Indexes in Apache

Making Our Own Indexes

Imagemaps

Image Map Directives

## **8. Redirection**

Alias

Rewrite

Speling

## **9. Proxying**

Security

Proxy Directives

Apparent Bug

**6ª Calle Oriente #6-3, Colonia Utila, Nueva San Salvador, El Salvador.  
Tel. (503) 2287-0701 Tel. / Fax (503) 2287-0322 Cel. (503) 7737-2301 7980-8388

**active** systems S.A. de C.V.

Performance

Setup

## **10. Logging**

Logging by Script and Database

Apache's Logging Facilities

Configuration Logging

Status

## **11. Security**

Internal and External Users

Binary Signatures, Virtual Cash

Certificates

Firewalls

Legal Issues

Secure Sockets Layer (SSL)

Apache's Security Precautions

SSL Directives

Cipher Suites

Security in Real Life

Future Directions

## **12. Running a Big Web Site**

Machine Setup

Server Security

Managing a Big Site

Supporting Software

Scalability

Load Balancing

**6ª Calle Oriente #6-3, Colonia Utila, Nueva San Salvador, El Salvador.  
Tel. (503) 2287-0701 Tel. / Fax (503) 2287-0322 Cel. (503) 7737-2301 7980-8388

[www.activesystemsa.com](http://www.activesystemsa.com)**

**active** systems S.A. de C.V.

### **13. Building Applications**

Web Sites as Applications

Providing Application Logic

XML, XSLT, and Web Applications

### **14. Server-Side Includes**

File Size

File Modification Time

Includes

Execute CGI

Echo

Apache v2: SSI Filters

### **15. PHP**

Installing PHP

Site.php

### **16. CGI and Perl**

The World of CGI

Telling Apache About the Script

Setting Environment Variables

Cookies

Script Directives

suEXEC on Unix

Handlers

Actions

Browsers

**active** systems S.A. de C.V.

## **17. mod\_perl**

How mod\_perl Works

mod\_perl Documentation

Installing mod\_perl-The Simple Way

Modifying Your Scripts to Run Under mod\_perl

Global Variables

Strict Pregame

Loading Changes

Opening and Closing Files

Configuring Apache to Use mod\_perl

## **18. mod\_jserv and Tomcat**

mod\_jserv

Tomcat

Connecting Tomcat to Apache

## **19. XML and Cocoon**

XML

XML and Perl

Cocoon

Cocoon 1.8 and JServ

Cocoon 2.0.3 and Tomcat

Testing Cocoon

## **20. The Apache API**

Documentation

APR

Pools

Per-Server Configuration

**6ª Calle Oriente #6-3, Colonia Utila, Nueva San Salvador, El Salvador.  
Tel. (503) 2287-0701 Tel. / Fax (503) 2287-0322 Cel. (503) 7737-2301 7980-8388  
e-mail: [info@activesystemsa.com](mailto:info@activesystemsa.com)  
[www.activesystemsa.com](http://www.activesystemsa.com)**

**active** systems S.A. de C.V.

Per-Directory Configuration

Per-Request Information

Access to Configuration and Request Information

Hooks, Optional Hooks, and Optional Functions

Filters, Buckets, and Bucket Brigades

Modules

## **21. Writing Apache Modules**

Overview

Status Codes

The Module Structure

A Complete Example

General Hints

Porting to Apache 2.0

## **Appendix: The Apache 1.x API**
